Presentation 2024

CVIBP – SAP

Made by: Group 1

Victoria Binecz (AUAS)
Ziad Aboufirass (AUAS)
Ahmed Mohamed Lemine (AIU)
Khushi Mittal (SIU)
Pallavi Nair (UOWD)
Arpita Banerjee (SIU)

Content

01 Introduction

02 Chosen Industry

03 First Company - DHL

04 Second Company - VRL

05 Third Company - FedEx

06 Solution

07 References

Chosen Industry

DHL

- Sustainable Aviation Fuel For Shipments
- Green transport Initiatives
- Energy-Efficient Warehouses
- GoGreen Plus Program
- Carbon Insetting

DHL Comparison

Alignment between the actions and the BRSR & ESRS

BRSR

- Principle 6 - Protection of the Environment
- Principle 2 - Product Lifecycle Sustainability

ESRS

- Reduction of Scope 1, 2, and 3 emissions - Paris agreement
- Use of renewable energy and energy efficiency
- Transition plans toward a low-carbon economy

VRL Logistics Limited

- Energy Efficiency
- Reducing GHG Emissions
- Water Management
- Material Sourcing
- Occupational Health and Safety
- Waste Management

VRL LOGISTICS LTD

P1	**Businesses should conduct and govern themselves with integrity, and in a manner that is Ethical, Transparent and Accountable**
P2	**Businesses should provide goods and services in a manner that is sustainable and safe**
P3	**Businesses should respect and promote the well-being of all employees, including those in their value chains**
P4	**Businesses should respect the interests of and be responsive to all its stakeholders**
P5	**Businesses should respect and promote human rights**
P6	**Businesses should respect and make efforts to protect and restore the environment**
P7	**Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent**
P8	**Businesses should promote inclusive growth and equitable development**
P9	**Businesses should engage with and provide value to their consumers in a responsible manner**

Disclosure Questions	**P 1**	**P 2**	**P 3**	**P 4**	**P 5**	**P 6**	**P 7**	**P 8**	**P 9**
Policy and management processes									
1. a. Whether your entity's policy/policies cover each principle and its core elements of the NGRBCs. (Yes/No)	Y	Y	Y	Y	Y	Y	N	Y	Y
b. Has the policy been approved by the Board? (Yes/No)	Y	Y	Y	Y	Y	N	N	Y	Y
c. Web Link of the Policies, if available	Refer note below*								
2. Whether the entity has translated the policy into	Y	Y	Y	Y	Y	Y	N	Y	Y

VRL Comparison

Alignment between the actions and the BRSR & GRI

PRINCIPLE 6

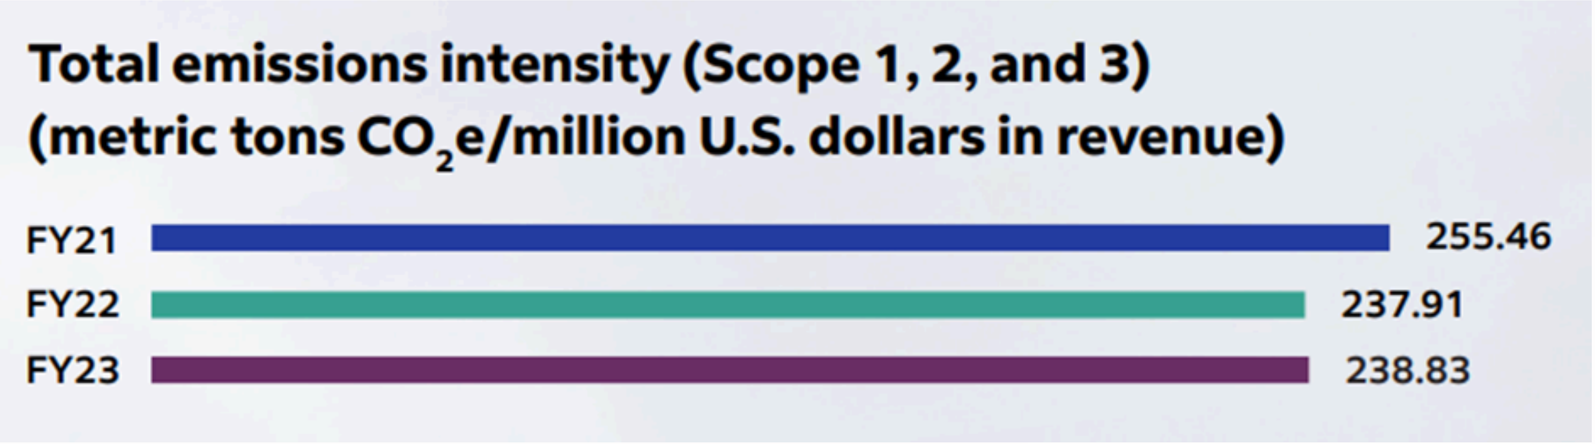

Businesses should respect and make efforts to protect and restore the environment

- ***Integrating the latest environmentally friendly BS-VI vehicles.***
- ***Installing rooftop solar panels across multiple facilities to reduce dependency on non-renewable energy.***

FedEx

Report on Carbon emissions and Reduction efforts Carbon emissions-
In FY23, FedEx reported total GHG emissions of 21,531,415 metric tons CO2e. This includes:

1.Scope 1 – Direct emissions
2.Scope 2- Indirect emissions from energy
3.Scope 3- Other indirect emissions, mainly from contracted transportation

FedEx

1) Carbon Neutral Goal (2040): FedEx aims to achieve carbon-neutral operations by 2040, targeting Scope 1, Scope 2, and Scope 3 emissions. The company has committed $2 billion to GHG reduction efforts.

2) Fleet Modernization & Fuel Efficiency:

- **Electric Vehicles:** Transitioning to 100% electric purchases for FedEx Express fleets by 2040.
- **Aircraft Modernization:** Replacing older models with more fuel-efficient Boeing, ATR, and Cessna aircraft (deliveries between FY24-FY26).
- **Sustainable Aviation Fuel (SAF): I**ncorporating 3-4 million gallons of SAF into operations starting in 2024.
- **Fuel Sense Program:** Expanding efforts to reduce aircraft fuel consumption and GHG emissions across the network in FY24.

3) Energy Efficiency: Implementing energy-saving measures like solar panels; Shanghai HQ is LEED Gold-certified (opened in 2024).

FedEx Comparison

Alignment between the actions and the BRSR & GRI

FedEx’s action to reduce carbon emissions generally align with the requirements and principles outlined in the Business Responsibility and Sustainability Reporting (BRSR) and European Sustainability Reporting Standards (ESRS).

ESRS

- **ESRS E1 Alignment:** FedEx's carbon neutrality goal, vehicle electrification, sustainable fuels, and aircraft modernization support climate change mitigation and GHG reduction.
- **ESRS E5 Alignment:** FedEx's focus on sustainable facilities and renewable energy aligns with transparency in energy use and consumption reduction.

BRSR

- **Principle 2 Alignment:** FedEx's investments in SAF and energy-saving initiatives show its commitment to environmentally sustainable services.
- **Principle 3 Alignment:** FedEx's carbon reduction and transparent GHG reporting enhance both environmental sustainability and stakeholder well-being.

AI-POWERED EMISSION REDUCTION SOLUTIONS

In the transportation industry, reducing emissions is crucial for meeting Environmental, Social, and Governance (ESG) guidelines.

Real-Time Emission Monitoring & Reporting

AI-Driven Route Optimization

Predictive Maintenance for Fuel Efficiency

Fleet Electrification Strategy

AI for Carbon Offset Suggestions

THANK YOU FOR LISTENING
